ABOUT ME

Front-end Developer with more than 2 years of experience. I proposed the idea of implementing web development in my past company and with this we increased at least 20% more clients. I work with many technologies not only programming, I also master tools for web design.

EXPERIENCE

Freelance - Front-End Developer

Jan 2022 / Present

- I Developed websites from front to backend using JavaScript, TypeScript, React.js, Node.js, MongoDB, API REST and their respective frameworks.
- I Enhanced user experience and accomplish webpage objectives by creating site structure, navigation and page optimization.
- I Manage website development projects from initial design through completion, optimizing all cross-browser and multi-platform compatibility.

Imperio Gafico - Web and Graphic Designer

Jan 2019 / Dec 2021

- I Created user interfaces with better accessibility and with a focus on mobile devices (Mobile first).
- I improved the design (UI) of applications and websites using design tools to be implemented in their development.
- I proposed the idea of implementing web development in the company and with this we achieved a large increase in clients.
- I developed websites from the front end using Html, Css, JavaScript, React.js, Figma, Illustrator and Photoshop.
